The idea behind the Transfer Project

- **A call for "Research and development for supporting knowledge transfer, scientific networking, and public engagement based on AquaticPollutants joint transnational projects*"**
- ***2020 Research Project Call on Risks posed to human health and the environment by pollutants and pathogens present in water resources.**

Objectives

- Strengthen the European Research Area (ERA) in the field of clean and healthy aquatic ecosystems
- Leverage untapped potential in the collaboration between the freshwater, marine and health research areas
- Fund research and development of methods for supporting knowledge transfer, scientific networking, and public engagement
- Support networking of the scientific projects of AquaticPollutants and to connect to other funded projects or activities by Water JPI, JPI AMR, and JPI Oceans.

Themes of the Additional Joint Call

- **1) Research and development of innovative strategies and methods for knowledge transfer, scientific networking, and increased public engagement**
 - **Supported by DE, FR, SE**
- **2) Implementation and valorisation of new methods for transfer, communication, and dissemination**
 - **Supported by DE**

Theme 1: Research and innovation

- **Development of innovative methods adapted to supporting the transfer of research results of AquaticPollutants projects** (strategy and a presentation of methodological development).
- **Analysis of frame conditions** for a successful transfer process of research results (e.g. definition of end-user groups in industry, science, politics or society; timeframes for knowledge transfer activities)
- **Analysis and synthesis of political demands** and research results in the field of emerging pollutants, pathogens and antimicrobial resistance EU wide and beyond.

Theme 2: Implementation and valorisation

- **Strategic support in the transfer of research**
- **Scientific networking within the funded projects and the ERANet Cofund Activities**
- **Increased involvement of and communication with (i) stakeholders and (ii) citizens**
- **Preparation, implementation of meetings**
- **Knowledge Transfer, publications and public relations**

Expected Impact

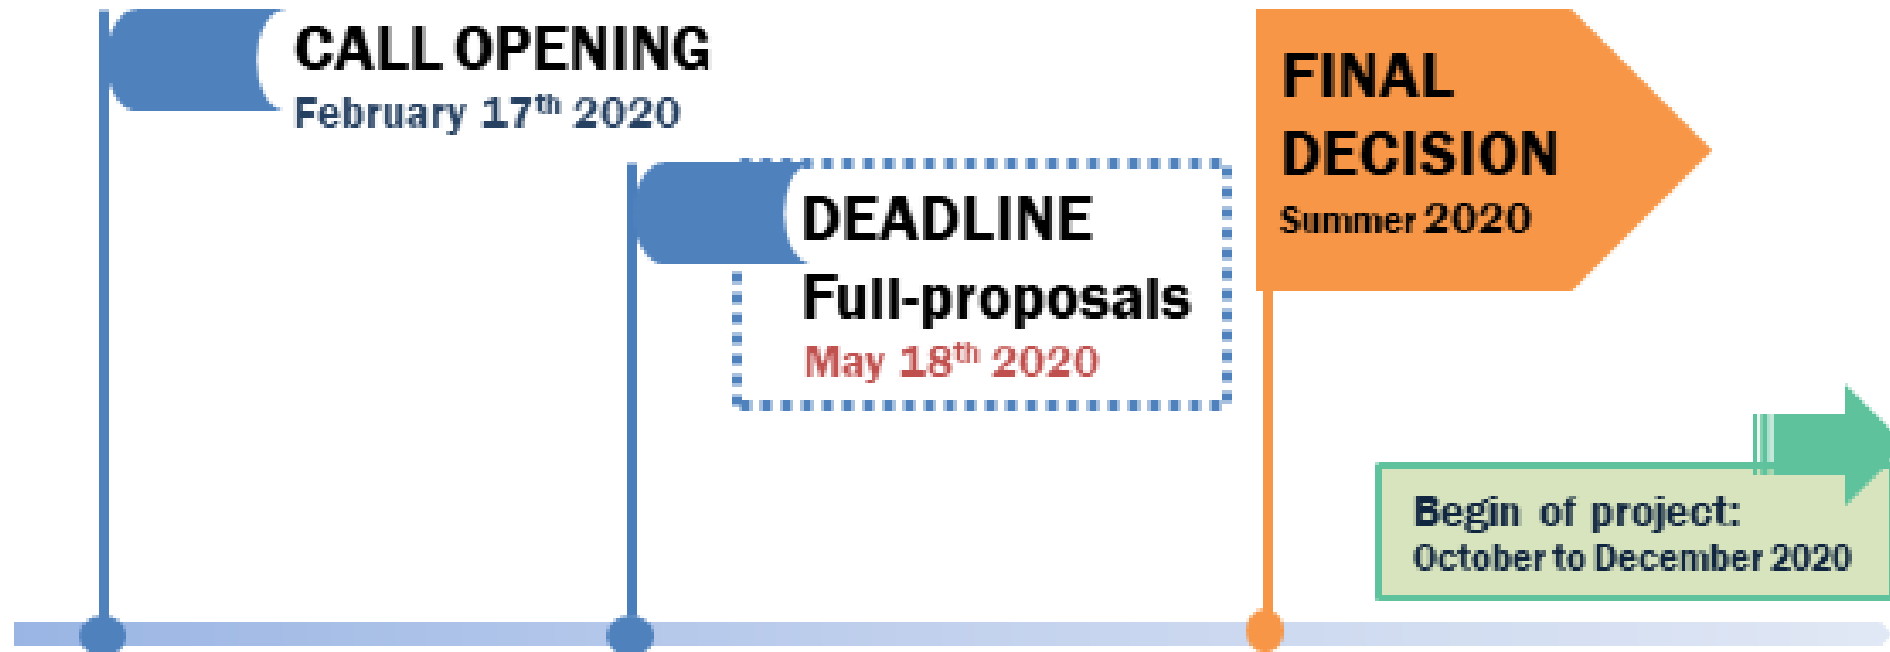

- Develop and evaluate methods for science communication, knowledge transfer and public engagement
- Enhance innovation capacity and integration and transfer of new knowledge;
- Strengthen the competitiveness and growth of companies by delivering such innovations to the public and private markets
- Support the development of technological solutions and services for the implementation of EU water policy.
- Support the generation of standardisation/ regulation and the valorisation of research results
- Address explicitly the communication to society and dissemination to stakeholders for future implementation
- Help improving the scientific quality and societal relevance of the produced knowledge, technology and/or innovation in different socio-economic settings.

Tour de Table

Who are you?

What is your interest in the Transfer Project?

Timeline of the call

General eligibility criteria

Proposals that are submitted correctly and within the deadline will be checked for eligibility against the general criteria by the Call Secretariat.

SCOPE

- (1) Topics of the proposals must be in the scope of the 2020 Transfer Project Call.
- (2) Proposals have to address **both** topics.

CONSORTIUM COMPOSITION

- (3) Each consortium must be composed of eligible independent entities from **at least one partner of the countries and according (three) FPOs** involved in this Call. The maximum number of partners from the same country within the consortium should comply with national/regional regulations.

General eligibility criteria

- (4) A Consortium Coordinator can only participate in one proposal of either a scientific project (AquaticPollutants Joint Transnational Call) or a Transfer Project.
- (5) Researchers from FPOs participating at the AquaticPollutants ERA-Net Cofund consortium or affiliated institutions **cannot apply** to this Call.

General eligibility criteria

DURATION

- (6) Project duration must be a **maximum of 48 months**.

SUBMISSION

- (7) Proposals must be received **before the deadlines** via the Submission Tool (<https://aquaticpollutants-transfer.ptj.de/>)
- (8) Proposals must be written in the **English**.

***Proposals, which do not meet all Transfer Project general eligibility criteria, will be declined without further review.**

National/Regional eligibility criteria

Proposals will be checked according to national/regional criteria at national / regional level:

Each project partner must ensure that his/her contribution to the overall project conforms to:

- relevance of the proposal to the topic(s) of national/regional programmes and strategies;
- Compliance with national/regional funding criteria and regulations; and
- Compliance with limits to budget requests.

***Please read your national/regional regulations or contact your National Contact Point to ensure full compliance with the National/Regional eligibility criteria.**

***Non-eligibility of a partner applying for funding in a proposal may cause the rejection of the entire proposal without further review.**

Submission Tool

- You will find all information for the submission procedure in the **Guidelines** (<https://aquaticpollutants.ptj.de/transfer-call1/>)

The screenshot shows the homepage of the Aquatic Pollutants Submission Tool. The header includes the logo and the text 'Pj Submission Platform' and 'CALL 1'. The main content is divided into three sections: 'CONTACT', 'SUBMISSION PLATFORM', and 'CALL DOCUMENTS'. The 'CONTACT' section lists contact information for Stefanie Pietsch and Christian Stolle. The 'SUBMISSION PLATFORM' section includes links for COORDINATOR REGISTRATION, COORDINATOR LOGIN, PARTNER LOGIN, and FUNDER LOGIN. The 'CALL DOCUMENTS' section lists documents such as 'Call Announcements Transfer Project', 'National funding regulations', and 'Guidelines for Full-Proposal Submission'. A large red arrow points from the 'CONTACT' section to the 'CONTACT' text on the left. Another red arrow points from the 'SUBMISSION PLATFORM' section to the 'Login' text on the left. A third red arrow points from the 'CALL DOCUMENTS' section to the 'Call documents' text on the left. The main content area also features a 'Deadline extension due to COVID-19' notice, a 'New funding organisation joins Transfer Project' announcement, and a 'Webinar for Applicants' section.

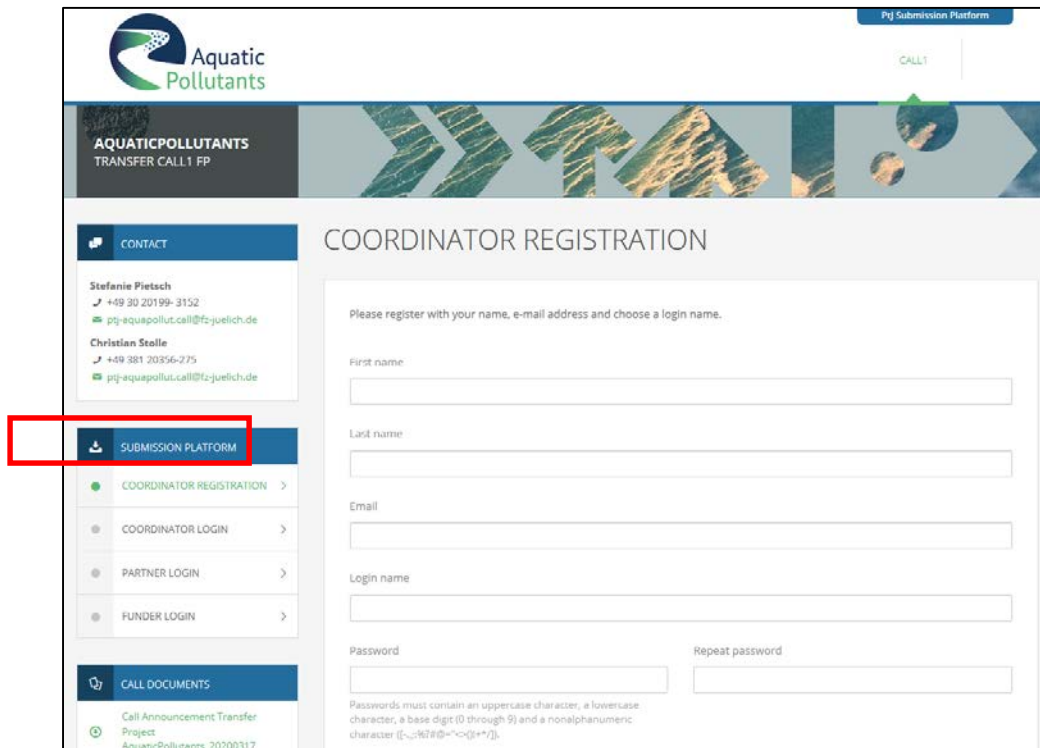

Submission Tool - Workflow

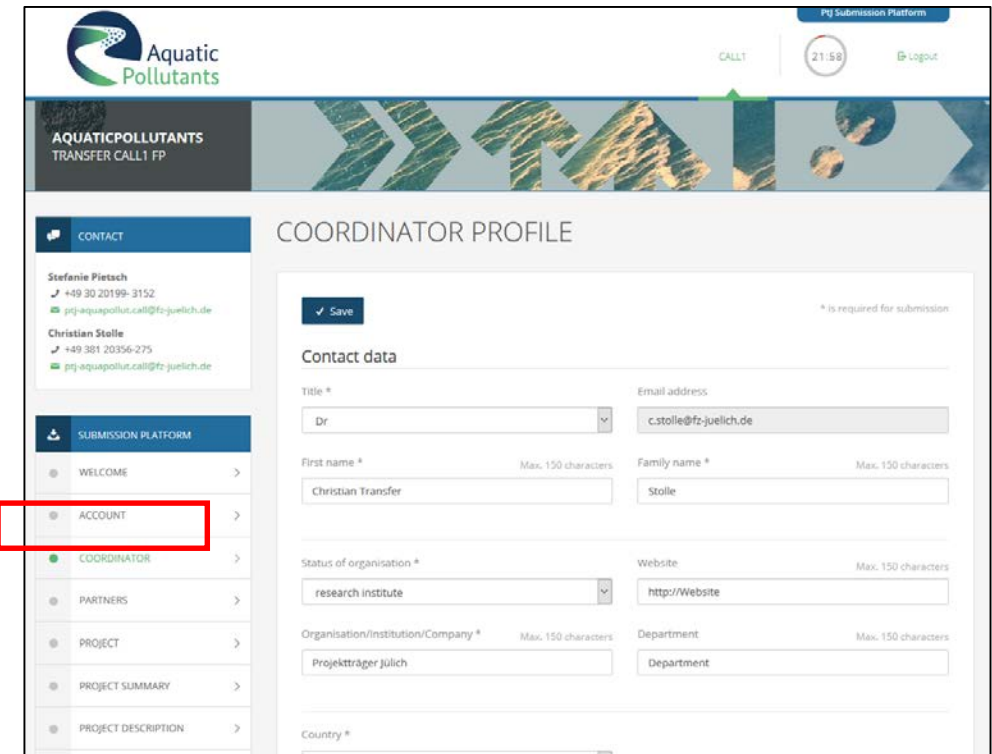

Submission Tool – Coordinator registration

1) The Consortium Coordinator has to **register** via the call-homepage: <https://aquaticpollutants.ptj.de/transfer-call1/call1>

2) After login, the coordinator has to fill in the **personal information** (e.g. affiliation, CV, reference projects, etc.)

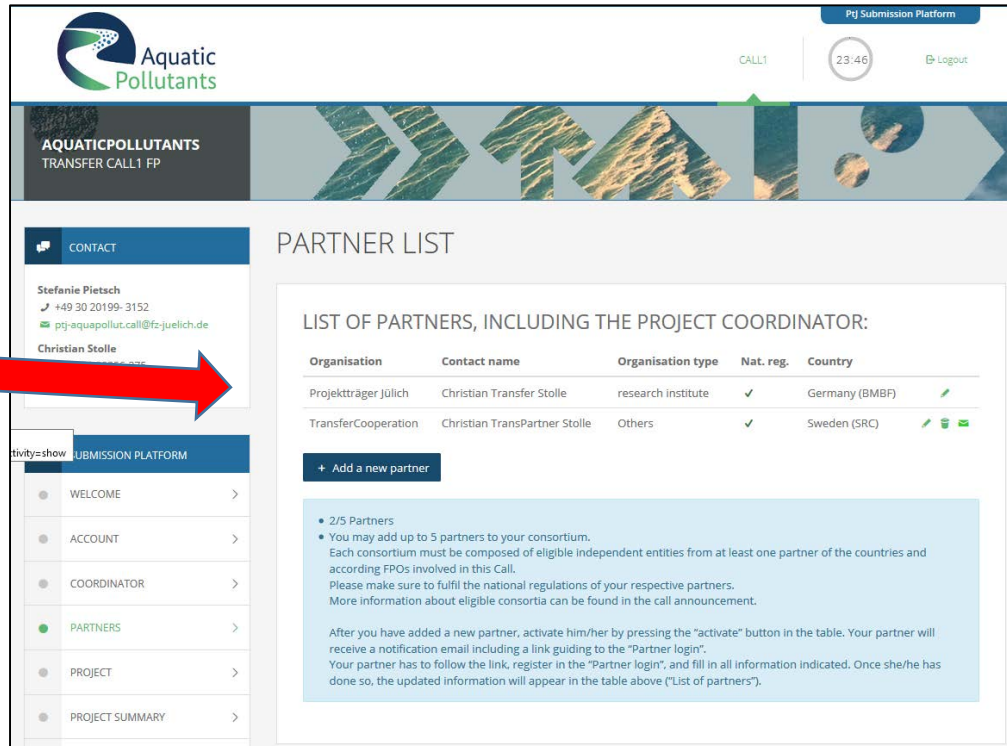

The screenshot shows the homepage of the Aquatic Pollutants Submission Platform. The main navigation menu includes 'CONTACT', 'SUBMISSION PLATFORM' (highlighted with a red box), 'COORDINATOR REGISTRATION', 'COORDINATOR LOGIN', 'PARTNER LOGIN', and 'FUNDER LOGIN'. The 'COORDINATOR REGISTRATION' page is active, displaying a registration form with fields for 'First name', 'Last name', 'Email', 'Login name', 'Password', and 'Repeat password'. A message above the form reads: 'Please register with your name, e-mail address and choose a login name.' A footer note states: 'Passwords must contain an uppercase character, a lowercase character, a base digit (0 through 9) and a nonalphanumeric character [-_!@#%^&*~`~{}|;:,<.>()+=~?].'

The screenshot shows the 'COORDINATOR PROFILE' page. The main navigation menu includes 'CONTACT', 'SUBMISSION PLATFORM', 'WELCOME', 'ACCOUNT' (highlighted with a red box), 'COORDINATOR', 'PARTNERS', 'PROJECT', 'PROJECT SUMMARY', and 'PROJECT DESCRIPTION'. The 'COORDINATOR PROFILE' page displays contact information for Stefanie Pietsch and Christian Stolle. The 'Contact data' section includes fields for 'Title *' (Dr), 'Email address' (c.stolle@fz-juelich.de), 'First name *' (Christian Transfer), and 'Family name *' (Stolle). Other fields include 'Status of organisation *' (research institute), 'Website' (http://Website), 'Organisation/institution/Company *' (Projekträger Jülich), 'Department', and 'Country *'. A 'Save' button is visible at the top left of the profile section.

Submission Tool – step-by-step procedure

Different steps to provide information (e.g. project description, work plan, finances, etc.)

Relevant information needed is provided above/below text boxes

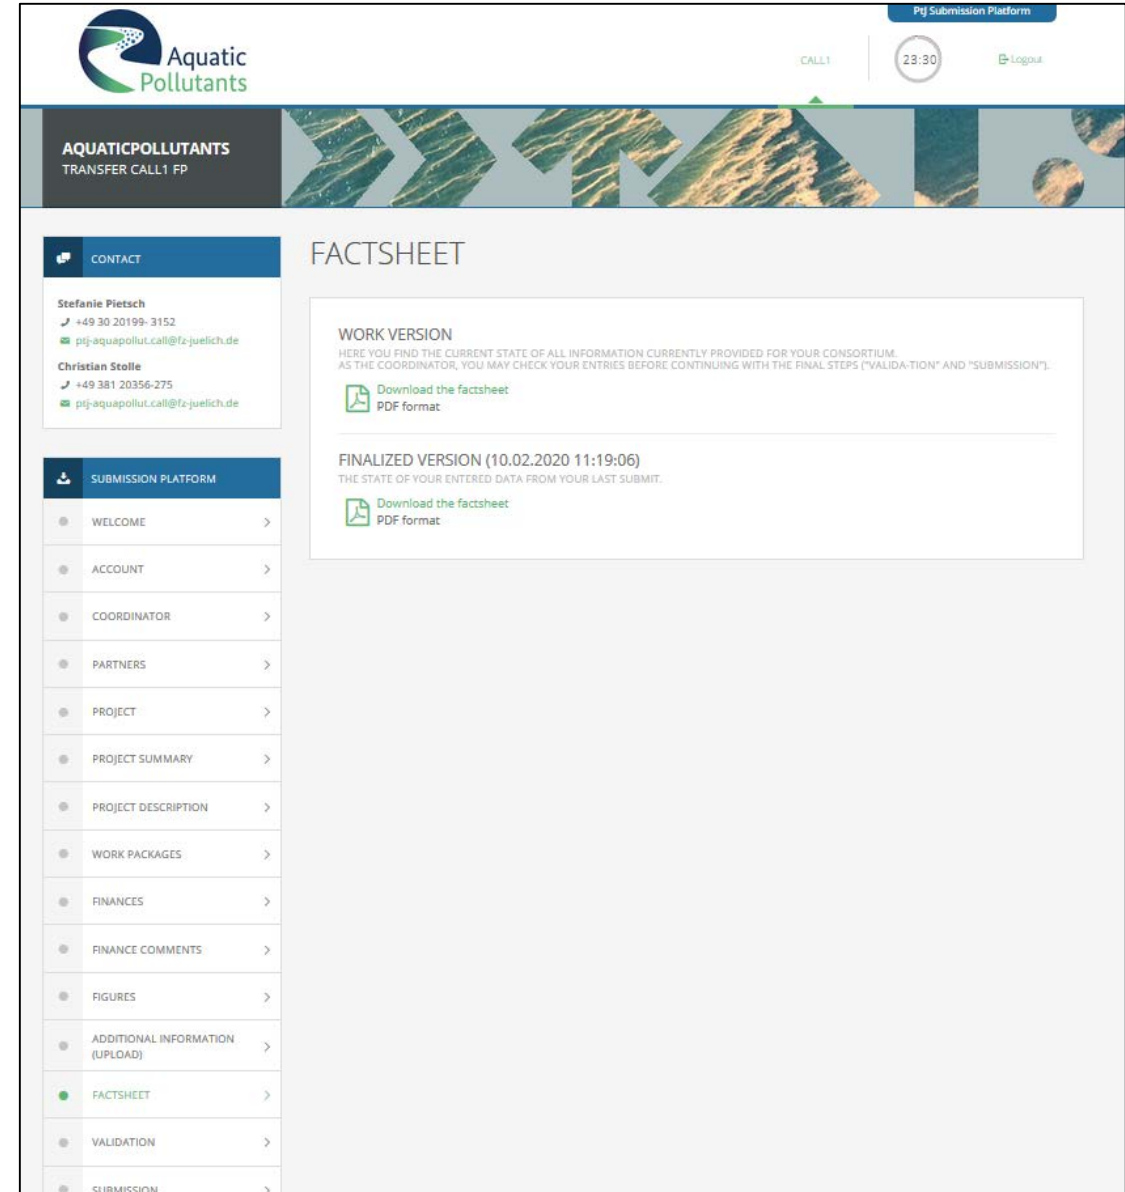

Please note character limitations (in text boxes), page limitations (uploads), or max. amount of figures

Please note the time decreasing!
There will be an automatic logout after 24 minutes of no action!
Please ensure you save your entries in time!

Submission Tool – Factsheet

- All entries saved will be automatically stored in a pdf-file, which is called factsheet (**WORK VERSION**).
- The coordinator and each partner can download the factsheet at any time to check the entries saved so far.
- Once the full-proposal has been submitted, a second factsheet (**FINALIZED VERSION**) will be available.
- You may re-submit the pre-proposal at any time prior **May 18th, 17:00 CEST** and a new FINALIZED VERSION of the factsheet is created.

The screenshot displays the 'Aquatic Pollutants' submission platform interface. At the top, there is a navigation bar with the logo, 'CALL1', a clock showing '23:30', and a 'Logout' button. Below this is a header section with 'AQUATICPOLLUTANTS' and 'TRANSFER CALL1 FP'. The main content area is divided into two columns. The left column contains a 'CONTACT' section with details for Stefanie Pietsch and Christian Stolle, and a 'SUBMISSION PLATFORM' menu with options like WELCOME, ACCOUNT, COORDINATOR, PARTNERS, PROJECT, PROJECT SUMMARY, PROJECT DESCRIPTION, WORK PACKAGES, FINANCES, FINANCE COMMENTS, FIGURES, ADDITIONAL INFORMATION (UPLOAD), FACTSHEET (highlighted), VALIDATION, and SUBMISSION. The right column is titled 'FACTSHEET' and contains two sections: 'WORK VERSION' and 'FINALIZED VERSION (10.02.2020 11:19:06)'. Each section includes a 'Download the factsheet PDF format' button.
